

Temple Insurance Company
Casualty Technical and Special Risk Department

Risk Solutions

Toronto, March, 2010

The next step in the evolution of Temple Insurance Company in Canada is the introduction of Casualty Technical and Special Risks Products for Broker Distribution, effective March 22, 2010.

We are committed to providing Canadian Brokers with competitive, niche insurance products delivered both professionally and effectively.

Temple Insurance Company, along with existing property and engineering products, can offer Canadian companies with annual revenues in excess of \$250 million, or with high hazard casualty exposures, the following casualty products:

- Primary Commercial Liability
- Primary Umbrella Liability
- Excess Umbrella Liability

We are able to facilitate a fully compliant cross-border offering of products through our affiliate, The Midland Company. In addition, Temple can offer supporting Canadian commercial automobile fleet policies with our casualty products.

With the authority to make underwriting and claims decisions locally, we can work closely with our Canadian broker network to tailor policies for customers' specific needs and requirements.

Temple Insurance Company, rated A+ (Superior) by A.M. Best Rating, is an innovative Canadian commercial insurance company providing specialty insurance solutions over a variety of business lines. Temple is a member of the worldwide Munich Re Group, a world leader in reinsurance and risk solutions.

Please contact a member of the Casualty Technical and Special Risk Department if you have any questions or would like a quotation.
